

ORION SECURITY LSP

A Leading Provider Of Cost Effective GPS Fleet Management Solutions

Return On Investment Analysis

How Do Orion GPS Fleet Management Solutions Save Money?

Fuel Consumption:

For every mile per hour that a vehicle travels in excess of 50 mph, fuel efficiency decreases by 1.5%. Orion GPS Fleet Management Services allows you to constantly monitor real time and average speed data. The deployment of a GPS fleet monitoring solution can decrease fleet wide fuel consumption by more than 6%.

Operating Cost:

Studies have shown that a GPS tracking unit can on average reduce a vehicle's travel by 25 miles per week. With an average vehicle operating cost of \$1.50 per mile, that is a savings of \$160 per vehicle per month.

*On average
fleet management
solutions generate an
annual savings of
\$1,100 per vehicle in
operating costs alone.*

- The Aberdeen Group

Vehicle Utilization:

With Orion GPS Fleet Management Solutions, managers can more efficiently route employees in real time and schedule preventive maintenance through remote vehicle mileage reports. Studies show that vehicle utilization increases by 17% with the use of a GPS tracking system.

Operator Compliance:

Orion GPS Fleet Management Solutions provide managers with complete information regarding the status of their fleets, both historically and in real time. Studies have proven that worker compliance increases by 28% with the utilization of GPS fleet tracking.

What Are Orion Customers Saying?

"I never could have imagined how useful real time GPS location information could be. Not only can we optimize routes, but being able to view information about how long and where a van has been stopped is invaluable. Orion tracking services allows our mobile workforce to be more productive, and we are now considering scaling down our fleet." - Marshall Custom Cabinets

"My Orion GPS tracking system helps me to manage my fleet of utility trucks by improving efficiency and safety. I save time in my invoicing process with the instant access to historical mileage records and improve fleet safety with the Speed Alerts. The low cost of entry and simple monthly payments made it an easy purchase decision. The Orion system has freed up valuable time for me to focus on other areas of my business." - C&W Meter Service

The Orion Solution:

Orion Security is a Philadelphia based provider of GPS fleet management solutions. Orion offers a turn key solution, providing vehicle tracking units, location software, and customer support. Our tracking units are the most cost effective within the industry, requiring minimal upfront investment. For more information, please visit www.OrionLSP.com/Fleet/.
